Sete Cidades - Full Day

Sete Cidades, a green, fairy-tale crater with its twin lakes, is almost ten miles in circumference. This extinct volcano crater has two magnificent lakes, one deep blue colour and the other emerald green. A legend tells the story of a princess and a shepherd boy who fell in love but were forbidden to meet. She had blue eyes, he had green eyes, and when they met for the last time they cried so much their tears formed the lakes.

You have a full day ride around the twin lakes and then ascend to ride around the rim of this huge volcanic crater. This can also be ridden in reverse. Have a picnic lunch by the lake shore. Please note that trotting and cantering around the crater rim is not permitted due to the number of walkers on the track.

You may be required to dismount and lead your horse downhill on some sections.

Orange Plantation Area and Sub-Tropical Forest - Half Day Ride

In The Saddle Page 4 of 6 Another lovely half day ride is directly from the Quinta past the high walls of the old orange plantations and into the thick vegetation of a sub-tropical forest. The colours of the flowers are amazing. Return to the Quinta for lunch.

The Quinta da Terca house is one of the oldest buildings on the islands full of interesting features. You should ask for a tour of the private parts of the house, which is really worth seeing.

There are five guestrooms each with a private bathroom (showers). One has a double bed and four have twin beds (some are double beds, and some are singles). The rooms have a television and a small selection of toiletries are provided in case you have forgotten anything.

In The Saddle Page 5 of 6 A single supplement is payable to guarantee a single room. If you are willing to share, the supplement is payable initially and then refunded if we find you a sharer.

You have meals in the welcoming dining room converted from a former stable. There are plenty of places to sit and relax, either indoors or on the veranda or in the gardens adjoining the horse paddocks.
