

# Alpine 4 night Safari, Australia

## Itinerary

This evening there will be an introductory dinner at the Reynella Homestead hosted by the owners John and Roslyn Rudd. After dinner you will be briefed on the days ahead.

After breakfast the next day you will be taken by 4 wheel drive or mini-bus to Providence (or an alternative starting-point), where you meet the horses and begin your ride.

Ride through the northern most part of the Kosciuszko National Park. The itinerary is not set in stone until nearer the departure date of your ride to accommodate changes in weather etc. However you will normally ride from the horses' base at Providence to Tantangara, Currango Creek, Long Plain, the Kiandra Gold Fields, 17 Flat and the Cherry Gardens amongst others.

You will stay at a variety of campsites during the ride and the route taken that day will depend very much on whether the group desire a longer or a shorter ride that morning/afternoon. Your guides will do their best to accommodate your wishes. Sometimes it may be possible to divide a group up into faster and slower riders and there may even be the opportunity to jump a few logs along the way.

On the penultimate day, it is a full day ride back to the Reynella Homestead. Later, enjoy a final meal together.

## Accommodation

Your first and last night is in comfortable lodge-style accommodation at The Homestead. There are a number of rooms, each accommodating anything from two to six people with shared shower facilities for all. The rooms contain a mixture of beds, including doubles, singles and bunk-beds.

Duvets and towels are provided and also heaters and electric blankets should it get very cold.

For the nights on the trail you camp in roomy two-man tents with thick mattresses or if you prefer, you can camp under the stars. Sleeping bags are available for hire, if you do not wish to take your own.

Everyone is expected to help set up camp and part of the fun is helping to erect and dismantle the tents.

Washing facilities on the trail are limited, but you may be able to swim in rivers.
