

Riding Programme, Ireland

Itinerary

The regular riding programme includes three hours riding per night's stay. Additional hours can normally be added and paid for locally (but are subject to availability).

Your personal riding itinerary will be designed to suit your riding experience and what you would like to do or achieve whilst you are at Castle Leslie. You may choose a combination of instruction, show jumping, cross-country and estate rides.

Alternatively, if you prefer to spend your time riding out over the Estate, without any lessons, then this is also possible (although everyone has an assessment lesson for their first hour).

Beginner and novice riders are welcome and a full programme of lessons, including time on the mechanical horse and hacking out, will be tailored to your ability and wishes.

When you confirm your holiday, your riding itinerary will be outlined for you based on your riding experience and what you wish to do. You should ensure this meets your wishes since it is best to make changes as early as possible. It may be possible to make changes to your programme when you are actually at Castle Leslie but flexibility may be limited at very busy times.
