

# Heart of Tuscany, Castellare di Tonda, Italy

---

## Itinerary

On arrival settle into your apartment and relax before dinner which is available from 6.30pm in the on-site Castellare Cucina restaurant.

You will meet your riding guide on Sunday morning.

The Heart of Tuscany week includes 12 hours of riding, which can be a mixture of lessons and trail rides.

Your first ride starts in the arena usually followed by a short ride through the estate. The first day is a quiet ride giving you the opportunity to get to know your horse and to feel comfortable with the style of riding.

Beginner riders will start off in the arena and join trail rides when the instructor believes them safe.

Subject to your riding ability and availability you may be able to join a full day ride (but note that day rides are not available in July and August).
